THE NEW ALDERMAN FROM WARD SIX.

The appointing and the confirming of James Adle as alderman from Ward six, to succeed the late Capt. H. A. Duffy, will be received with pleasure by the people of this city. It is safe to say that no other man could be found in that ward who would serve so acceptably to all in the position. Mr. Adie has had little experience in city affairs but in that respect he will be no worse off than several others on the board at the beginning of the present term. But he is a conscientious worker and will without doubt learn the details of the duties of his new posi-tation there, and he cannot even get the outekly. The dock, which was rented by Bur-ington from W. J. Van Patten pending the purchase of a municipal wharf, has not yet been utilized. The repairs that are necessary before the dock can be used have not been made, owing to the fact that the expense would be so large that it would not be profitable to spend the amount for so short a time as the dock will be used.

The potato crop in this section is large this year, but in many places is affected by a rot. The crop, however, will not be as large as last year, which was some-thing phenomenal. The apple crop throughout Vermont was never so large s this year. The trees are breaking lown with the fruit and farmers cannot give the apples away. They are now being fed to the stock.
